Financial Aid Director's Signature   Accounting Officer's Signature

_____   _____
Name and Title (please type or print)   Name and Title (please type or print)

_____ _____   _____ _____
Phone   Date   Phone   Date   (G-35 Rev. 11/07)

Instructions For The
College Cost Estimate Form 2008-2009

Schools may complete this information on-line on the WebGrants Cost Estimate page on the School Info menu. Separate College Cost Estimate information must be provided for each qualifying program with unique costs. For example, a school offering computer technician and computer drafting programs with different costs must complete a cost estimate form for each program. Your school's cost estimates should be based on a standard full-time undergraduate or teaching credential program for *a full academic year.* If your school offers vocational or occupational programs, provide estimates for a complete, standard, full-time program. If all programs offered at your school are of equal length and cost, you need to file only one form.

If your school has programs of varying lengths and/or costs, the Commission will make initial awards for 2008-2009 based on the program with the longest length and the highest cost. Schools are required to confirm students' program lengths and budgets as part of the payment process to ensure all students receive correct payments.

If you need to complete more than one College Cost Estimate, please duplicate this form.

1. School Information

School Name, Address, Campus (Optional) - Please enter name and mailing address of the school. Indicate the campus where the program is offered.

USED and Title IV Numbers - For identification purposes schools must provide both a Title IV number (the six-digit number assigned to all Title IV participating schools) and a United States Education Department (USED) OPE ID number. If you do not know your school's USED number, please contact the Commission.

First year students who are eligible for both Cal Grant A and B will initially be awarded with the school's indicated program of preference. Students who are enrolling in a second or subsequent year of college, and who are eligible for Cal Grant A *and* Cal Grant B will be automatically offered a Cal Grant B. Students have the option of changing the Cal Grant program they accept and schools made initiate program changes using the Student Program Change Upload process in WebGrants. However, once school has initiated a payment transaction, a student cannot change programs.

2. Program/Course Information

Course Title and Length - Enter program/course length in months or clock/credit hours. To be Cal Grant A eligible, a program must be at least two academic years in length and earn a degree or lead to transfer into a baccalaureate degree program. Eligible Cal Grant B programs are at least one academic year in length and can be for degree or certificate programs. Cal Grant C programs must be at least four calendar months in length and be for an approved vocational course of study.

2008-2009 Required Attendance - Indicate the payment periods required for full time attendance. Please enter a start date for each required period in mm/dd/yy format (example: 01/20/08). Each payment period must be approximately the same length.

3. 2008-2009 Costs   (Please Calculate Cost Based on a Nine-Month Budget)

Tuition - The Commission uses the highest rate supplied by the school when calculating awards. Payments will be adjusted by you according to actual tuition charged on the Grant Roster for each term listed.

Fees - Application, one time registration, and special course fees should **not** be listed. Please itemize fees charged to all students - registration fees, student services, etc. In addition, health fees which are not charged to commuting students or to students with private health insurance should not be included.

California Education Code 69433.5(e) states "Cal Grant program awards, except as provided in Section 69440, may only be used for educational expenses of a program of study leading directly to an undergraduate degree or certificate, or for expenses of undergraduate coursework in a program of study leading directly to a first professional degree, but for which no baccalaureate degree is awarded."

Room & Board On Campus - If your school does not have institutional dorm facilities, please indicate by writing N/A.

Five Year Academic Programs - "Fifth Year" benefits are available only to current recipients enrolled in those programs designated on this form. Contact the Commission if you have any programs that are not currently listed or have recently been added to your catalog.

4. School Certification

Please remember each copy must bear an original signature by an authorized school official.

If you have any questions do not hesitate to contact the Commission at:

Phone: 888-294-0153   FAX: 916-526-8002
